3. About the Singapore Chartered Accountant qualification

- 3.1 The Singapore CA Qualification is the national CA qualification, developed by the SAC, and administered by the Institute of Singapore Chartered Accountants (ISCA).
- 3.2 The Singapore CA Qualification is designed to be globally recognised and internationally portable. Through the Reciprocal Membership Agreements (RMAs) with members of Chartered Accountants Worldwide (CAW), the most prestigious group of professional bodies, the Singapore CA Qualification is mutually recognised with world-renowned chartered accountant qualifications. RMAs have been signed with the Institute of Chartered Accountants in England and Wales (ICAEW), the Institute of Chartered Accountants of Scotland (ICAS), the Chartered Accountants Ireland (CAI) and the Chartered Accountants Australia & New Zealand (CA ANZ).
- 3.3 The qualification comes with a curriculum of cutting-edge technical skills and a strong set of soft skills that are much needed in the corporate world. It also weaves together elements that meet the needs of Singapore and the Asian market, making this a truly unique accountancy programme.
- 3.4 The Singapore CA Qualification is a post-university accountancy qualification programme with three main components:
- (a) Academic Base
 - (b) Professional Programme
 - (c) Practical Experience
- 3.5 The Professional Programme aims to equip Candidates with the knowledge, skills and professional values that are required of a Chartered Accountant of Singapore. It is a self-study programme that offers flexibility and learning support to suit the individual study and working needs of each Candidate.
- 3.6 The technical modules may be attempted in any sequence, and only upon completion of the Ethics and Professionalism module and passing all four technical modules will a Candidate be eligible for the Integrative Business Solutions module. The following modules make up the entirety of the Professional Programme:
- (a) Ethics and Professionalism (EP);
 - (b) Financial Reporting (FR);
 - (c) Business Value Governance & Risk (BVGR);
 - (d) Assurance (AS);
 - (e) Taxation (TX); and
 - (d) Integrative Business Solutions.

Schedule A: Specifications of Learning Materials

Content of SCAQ Learning Materials to be set at post-graduate university level, with Application of Knowledge and Relevance to the Asian Market

1. The materials for the SCAQ (Professional), consisting of 4 technical modules and the Integrative Business Solutions (IB) module, should be pitched at a **post-graduate level** and have extensive coverage on the **practical application of the requisite knowledge** and use of **professional judgement**. There should also be **relevance to the Asian market**, through the use of case studies on Asian companies or companies operating in Asia.
2. The SCAQ (Professional) is designed to help prepare the SCAQ Candidates for successful professional careers in business. It should build on knowledge obtained from the Academic Base in order to develop the higher order skills of application, analysis, synthesis and evaluation. Careers in professional accountancy invariably require the application of knowledge and skills to diverse business situations. Thus, the learning materials need to develop the Candidates' ability to:
 - a) Identify problems, often in an unstructured business environment;
 - b) Recognise the knowledge required to solve problems;
 - c) Know where to find the knowledge; and
 - d) Apply the knowledge in a timely and ethical manner to provide solutions.
3. Candidates who successfully enrolled in each of the four technical modules and the Integrative Business Solutions module will receive the respective learning materials in soft copy to prepare for their examinations. The learning materials will be distributed by SAC to educate students in relation to gaining SAC's professional qualifications.
4. The contents of the learning materials should be matched closely to the syllabi of the Singapore CA Qualification (Professional). The contents shall also equip Candidates with internationally portable knowledge and skills as well as the rigor for international recognition, and enable them to gain the appropriate competencies to become professional accountants in all industries. The syllabus is available on the website at:

<https://www.sac.gov.sg/sites/sac2017/files/Syllabus%20Handbook%20-%20Singapore%20CA%20Qualification.pdf>
5. The language and communication styles should be relevant to both Asian audiences as well as major global business markets such as Australia, the United States and the United Kingdom.
6. Terms and conditions governing the Intellectual Property (IP) of the learning materials are listed in **Schedule C** of this ITT.

Integration of Ethics and Professionalism and Technical Modules

7. The Ethics and Professionalism (EP) module is an on-line module that must be completed. The EP module is designed to expose the Candidates to ethical issues and perspectives that are further developed in the later technical modules. As such, **ethics and professionalism elements have to be further integrated** throughout all of the SCAQ (Professional) modules, including the IB module.
8. As the Ethics and Professionalism (EP) module is supplied by another publisher, the Contractor is not required to publish the learning materials for this module.

The content should include, but not limited to:

IB Workbook Practice Cases 1 and 2 consist of four requirements each; and IB Workbook Practice Case 3 consists of eight requirements.
12. The IB Workbook should also serve as a platform for the development of professional skills, and should include full facilitator commentary with detailed plan and description of Practice Cases and suggested solutions or answer guides corresponding to the requirements.
13. Information on the SCAQ (Professional) examinations are available on the SAC website.
